

# ALPHABET SORTING MATS

M m

BY KATIE ROLTGEN

# WHAT'S INCLUDED:

This is a set of simple sorting mats for each letter of the alphabet.

You can place letters in a sensory bin or paper bag for students to find and sort.

There are two versions of the mats – one with a color background, and one black-and-white option.

You can use any letter manipulative that you have on hand. I like using letter magnets, letter beads, alphabet game pieces, and letter tiles.
