PREVIEW

Groundhog Day Centers FOR KINDERGARTEN

By Katie Roltgen

ABOUT THIS RESOURCE:

This resource includes ten Groundhog Day-themed centers that are designed for kindergarten. There are five literacy centers and five math centers.

Each of the centers includes either a practice page or a recording page.

The Sight Word Writing or Building center is editable in **Adobe**. If you are unable to edit the words or if they're not showing up, you need to save the file to your computer and re-open it in Adobe. It will not work correctly otherwise.

Except the Groundhog Sentences activity, all of the centers include both color and black-and-white versions.
