

KINDERGARTEN

MORNING ACTIVITIES

Safe, non-shareable morning activities for a fun start to your school day!

Thank you!

I hope you enjoy this resource!

If you have any questions about this resource or if I can change or fix something for you, please e-mail me at mrsroltgen@gmail.com.

Terms of use

You May:

- *Use this product for your own personal use. You may print and copy this resource for use in your own classroom
- *Review this product on your website or blog, as long as you provide a link to the product in my TpT store
- *Purchase additional licenses for colleagues at a discount
- *Contact me for a discounted site license

You May Not:

- *Give this item to others, in physical *or* digital form
- *Post this item on *any* website, including your personal website, classroom website, or district website
- *Post this item in a shared folder or drive unless a license is purchased for everyone who can access the file
- *Copy or modify this resource and sell it, offer it for free, or claim it as your own

quick tips

Having trouble viewing images? Make sure you have the latest version of Adobe installed.

Having trouble editing editable fields? Make sure you have saved the file to your computer and opened it in Adobe. You will not be able to edit in Preview or in your web browser's PDF viewer.

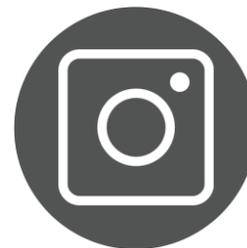

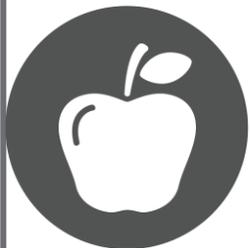

If the above tips aren't working or you need something else: Send me an e-mail at mrsroltgen@gmail.com.

about katie

I'm a former teacher who is currently a stay-at-home mom. I have experience teaching kindergarten and K-2 special education. I love staying in the education world by creating useful and engaging resources for teachers. Be sure to stay in touch by following me on social media and checking out my website at katieroltgenteaching.com.

ABOUT THIS RESOURCE

What. A. Year.

2020 has been full of more downs than ups.

But our students are still depending on us to provide consistent, engaging, hands-on activities for their kindergarten year.

If morning work tubs have been part of your school day in the past, the guidelines and safety rules needed for this year may not allow us to use tubs. However, I was determined to come up with morning activities that...

1. Are **safe** for students
2. Are easy to implement
3. Are engaging and hands-on
4. Are easy to use with in-person or remote instruction

This pack of morning activities addresses those challenges head-on. Keep reading for all the details. And THANK YOU for all you do!

PLEASE READ

A Disclaimer

Guidelines for use of classroom materials vary district-to-district. When using this resource, please follow the social-distancing and health guidelines mandated by your school district, county, or geographical region. My suggestions and ideas may not apply to your region and/or may be invalid where you live due to measures beyond my or your control.

Basically, always follow your school guidelines when using these materials. If something that I've suggested is not allowed where you teach, then skip it. Thank you!

WHAT'S INCLUDED

This resource is designed to be used in place of traditional morning work or morning tubs. Students will need their own supply kit with the necessary materials to complete each activity.

A supply list can be found on the next slide.

Editable labels are included in the download folder.

SUPPLY KIT MATERIALS

You will need one pencil box or zipper bag per student with the following supplies:

Crayons

Pencil

Scissors

Glue

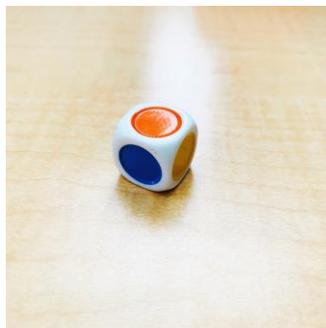

Beads

Mini Erasers

Playdough

Color-sided Die

Number-sided Die

Other materials (to be passed out as needed; will not be reused):

- * 3/8-inch dot stickers
- * Construction paper strips

MATERIALS CONTINUED...

When creating these activities, I tried to keep the materials list short while providing activities that will actually be engaging and fun for kindergarteners.

Most of the materials are typical school supplies.

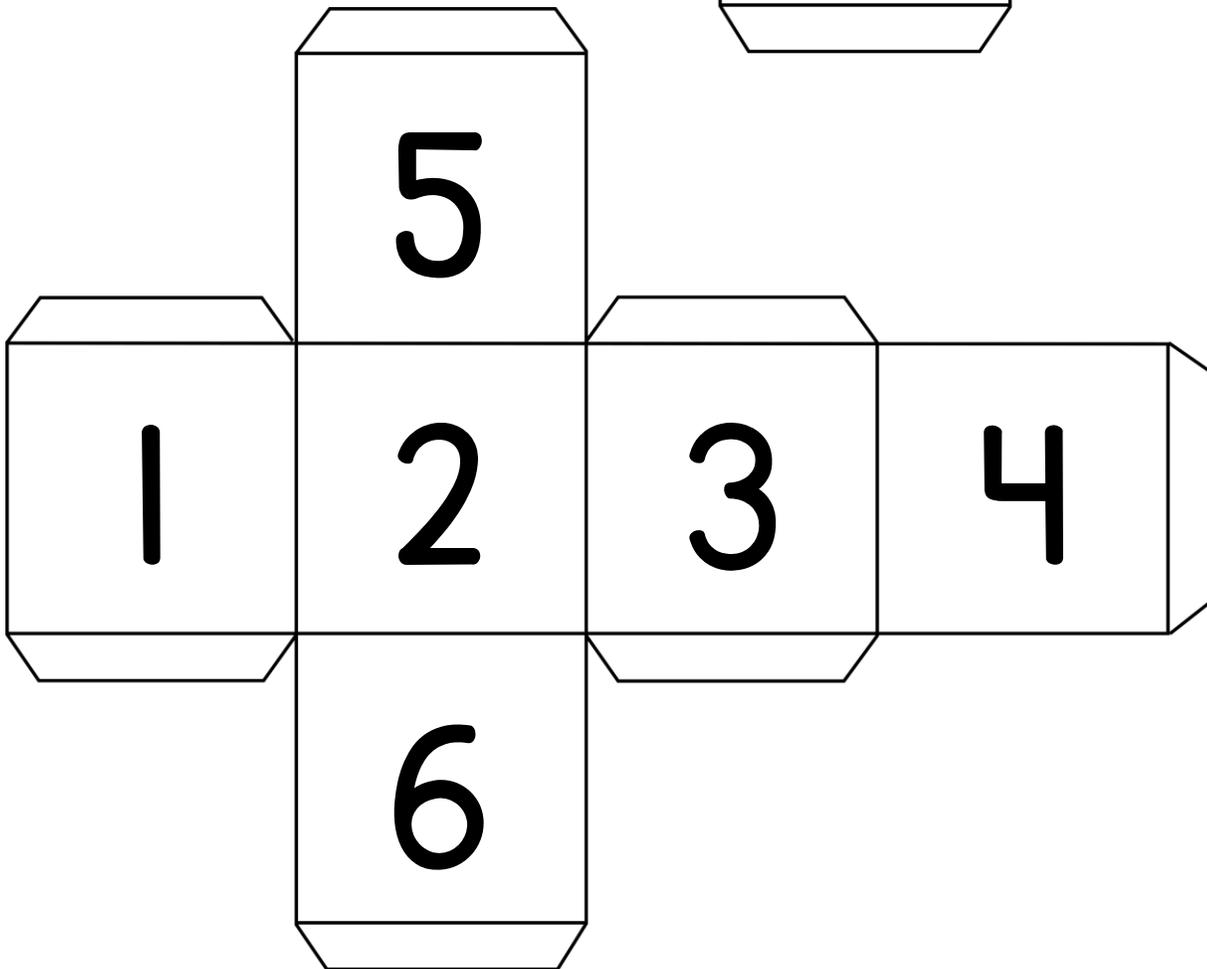

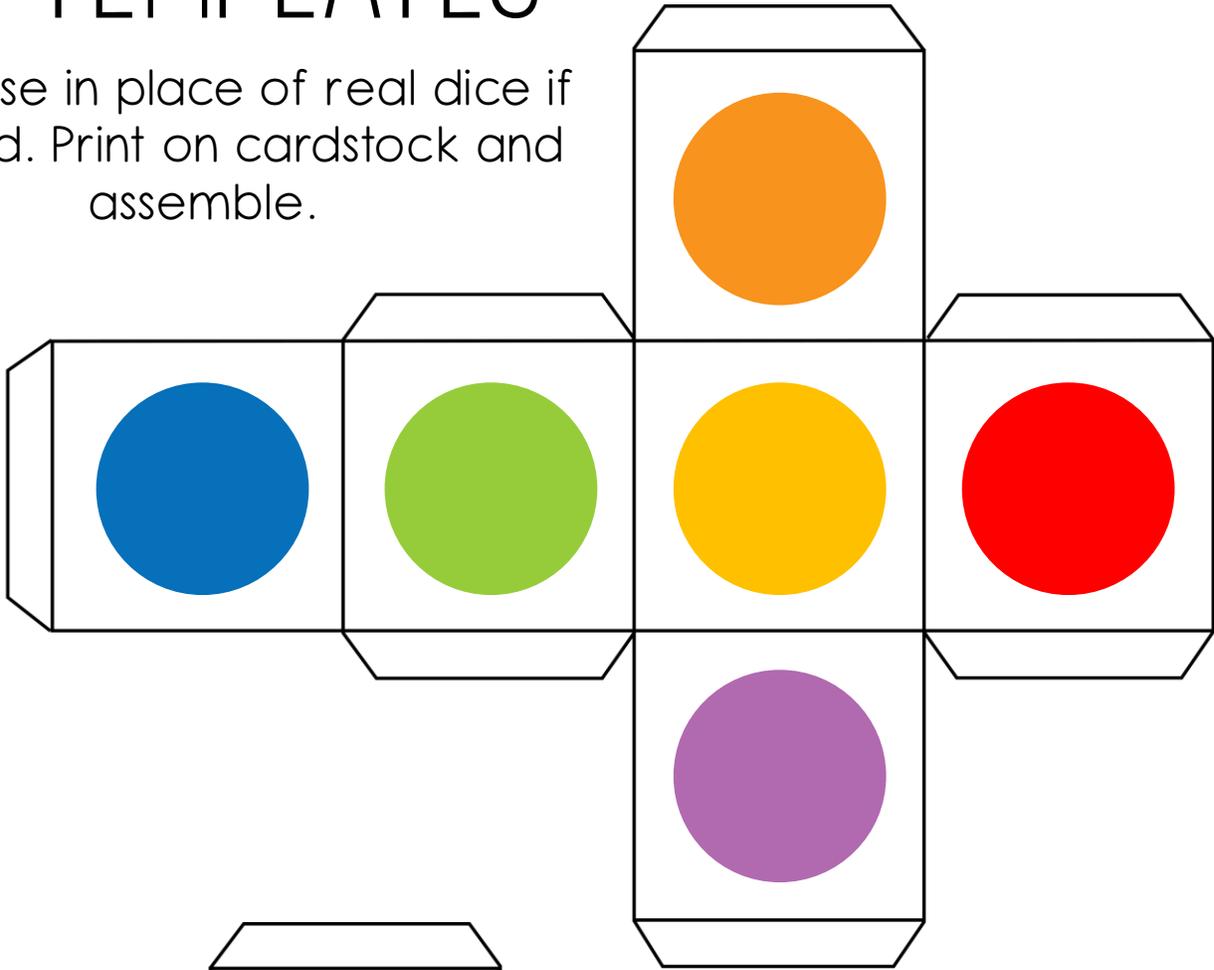

For the beads and mini erasers, I found small screw-top containers from Amazon. They can fit approximately 20 mini erasers and dozens of beads. They're very simple to open and small enough to fit in a supply box.

For the dice, I have color-sided dice that I bought online several years ago. For the number-sided dice, you can use regular dice or write numbers or dots on foam cubes. Bonus: foam cubes are not as noisy! 😊 You could also use the paper dice templates on the next slide.

For a few activities, you will pass out construction paper strips and 3/8" dot stickers. These will be recycled or tossed afterwards and not shared.

DICE TEMPLATES

Use these in place of real dice if needed. Print on cardstock and assemble.

WHERE CAN I FIND LINKS TO THESE MATERIALS?

There are three easy ways to find them!

1. I have a pinned post on my Facebook page with links to all of the materials. Click on my logo on the left to see my Facebook page!

2. If you cannot find the pinned post, look for the square image on the left in my photos and click on it.

3. Please feel free to email me any time! My email address is

mrsroltgen@gmail.com.

You can also PM me on Facebook or DM me on Instagram (@kroltgen).

WHAT'S INCLUDED

There is a corresponding Powerpoint presentation with a slide for each activity. You will project the slide for students to see. Each slide shows the materials that are needed and gives visual instructions.

3

Apple Tree

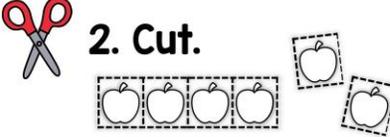

You Need:

1. Write your name.

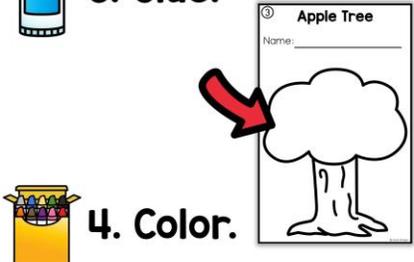

2. Cut.

3. Glue.

4. Color.

The slides can be imported into Google Classroom so you can use them for distance learning. I also included a blank slide so you can create your own slides if needed.

HOW TO USE THESE

Each activity is intended to be simple enough for kindergarteners to complete with no help (or maybe just a little!). The goal is for students to be able to complete these activities during the time between arrival and the beginning of your school day. Most activities will take 5-10 minutes to finish.

Each day, simply make copies of the activity you'd like to do (you don't have to go in order!). Although students will have the supplies they need for most activities, some days require you to pass out some construction paper strips or dot stickers.

For students who are learning remotely, please feel free to pass this document on to their families. Parents and caregivers can print each activity and complete it at home, using the Powerpoint slides I've provided if needed.
