  - \*Rhyming

PLUS: "What Doesn't Belong?" Task Cards

\*Note: The "What Doesn't Belong?" Task Cards were designed for speech therapy and they're slightly different from the other sets, but they are included in the bundle.

# Ways to Use Task Cards

Task cards have endless possibilities in your classroom! Here are some of my favorite ways to use them:

1. Traditional “Scoot-Style” - Place task cards around your classroom (on desks, taped to the wall, on the floor, etc.). Students will rotate around the task cards, bringing the recording sheet with them.
2. Learning Centers - Place task cards at your independent learning centers for no-hassle, low-prep center activities! The recording sheets let you see your students’ progress on the skill. Place them onto rings or into plastic photo albums to keep them tidy and organized!
3. Fast-Finisher Activities - Make task card sets available to your fast-finishers!
4. Guided Reading or Math Groups - Task cards are great for skill practice! You can use them as flash cards and have students call out or write the answer, or give each student one card at a time to work on.
5. Sensory Bins - Toss a set of task cards into a sensory bin and have students search for the task cards!
6. Parent Helpers/Big Buddies - Task cards make a great activity for parent helpers or big buddies!
