

FINE MOTOR TURKEYS

By Katie Roltgen

About This Resource:

This pack includes 14 fine motor activities that are perfect for small groups, morning tubs, centers, and more!

Some of the activities are printables and others require some preparation, such as cutting and laminating.

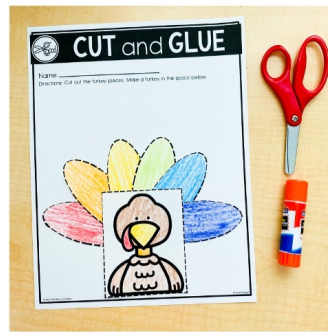

The activities are easy to adapt to your students' skills and your classroom needs.

Most of the activities include black-and-white options. Some activities, such as the color sorting bead activity, do not have a black-and-white option due to the nature of the activities.
