

Take A Peek Inside...

Write About It!

Spring Photo Prompts

About this Resource

This resource includes 20 spring-themed photo “slides” that are designed to be projected onto a white board (or similar) for the students to see. To use, open this PDF file to the page you want to use and project it. There are two versions of the photo slides:

- Set A includes a word bank that works great with younger writers.
- Set B does not include a word bank and works well for older writers.

I have included multiple writing page options, including different line styles and one- or two-to-a-page.

This resource works great for:

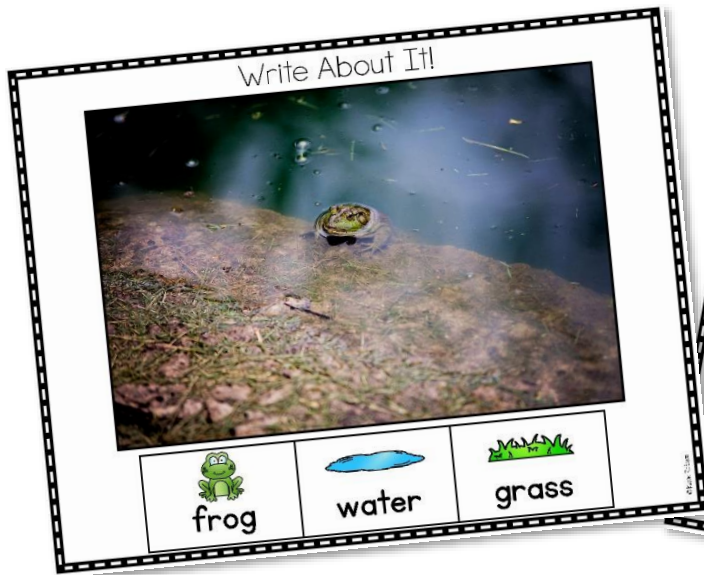

Morning Work * Daily Writing or Journaling *
Descriptive Writing * Writing Centers (place on a tablet or laptop computer) * and more!

Enjoy! -Katie ☺

A Closer Look

For each photo, there are two versions: One with a word bank, and one without.

Helpful words for young writers!

High-quality spring-themed photos!

Options Galore!

There are multiple writing page options. Some are whole-page, and some are half-page.
