

VALENTINE'S DAY

Writing Center Pack for Kindergarten

Six Writing Center Activities by Katie Roltgen

Valentine's Day Writing Center Activities

- 1) Valentine's Day Cards
- 2) Write the Room
- 3) People I Love List
- 4) Opinion Writing
- 5) Sentence Writing
- 6) Sight Word Tracing or Writing

Valentine's Day Cards

These Valentine's Day folding card templates allow your students to create cards for anyone!

There are **four** outside page (cover) options and **four** inside page options. Choose one outside page and one inside page version to mix and match!

About the inside pages: The first inside page option is in friendly letter format. The second and third inside pages have words to trace. The fourth inside page is blank.

These cards print two-to-a-page and are double-sided. You will print an outside page and an inside page front-and-back (flipped on the short side). Cut vertically on the solid line to create two cards per page. Fold each card on the dashed line.

Write the Room

Students will use the poster to help them write or trace eight Valentine's Day vocabulary words.

Print the vocabulary poster. There is a color version and a black-and-white version, so pick one or the other.

There are **three** recording page options:

- * Blank; words can go in any order
- * With pictures and blank spaces
- * With pictures and traceable words

Choose one recording page. Make copies and cut in half vertically to create two per page.

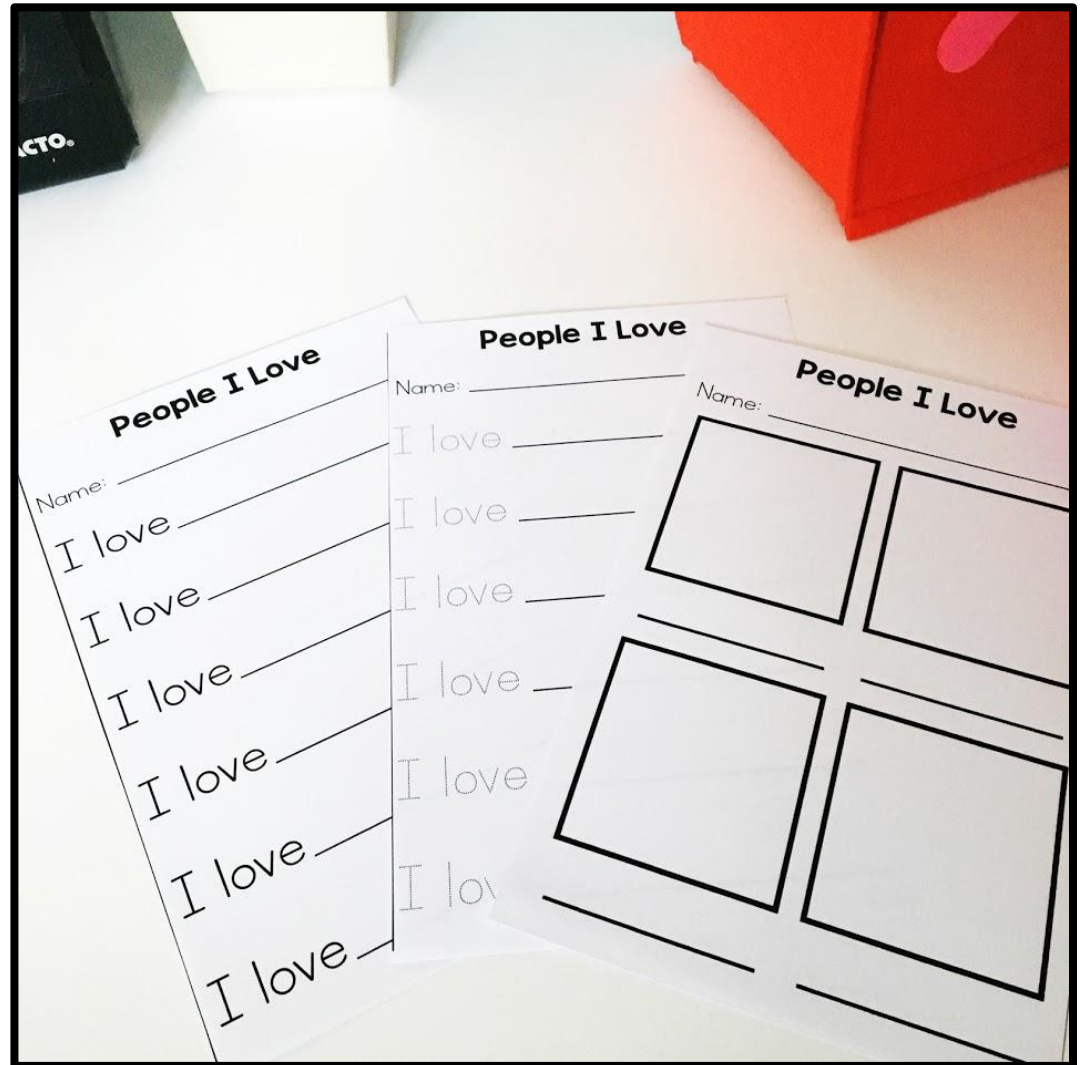

People I Love List

Students will use one of the templates to write or draw to tell who they love!

There are **three** page options:

- * Fill-in-the-blank writing version
- * Trace and write version
- * Draw and write version

Choose one writing page. Make copies and cut in half vertically to create two per page.

Opinion Writing

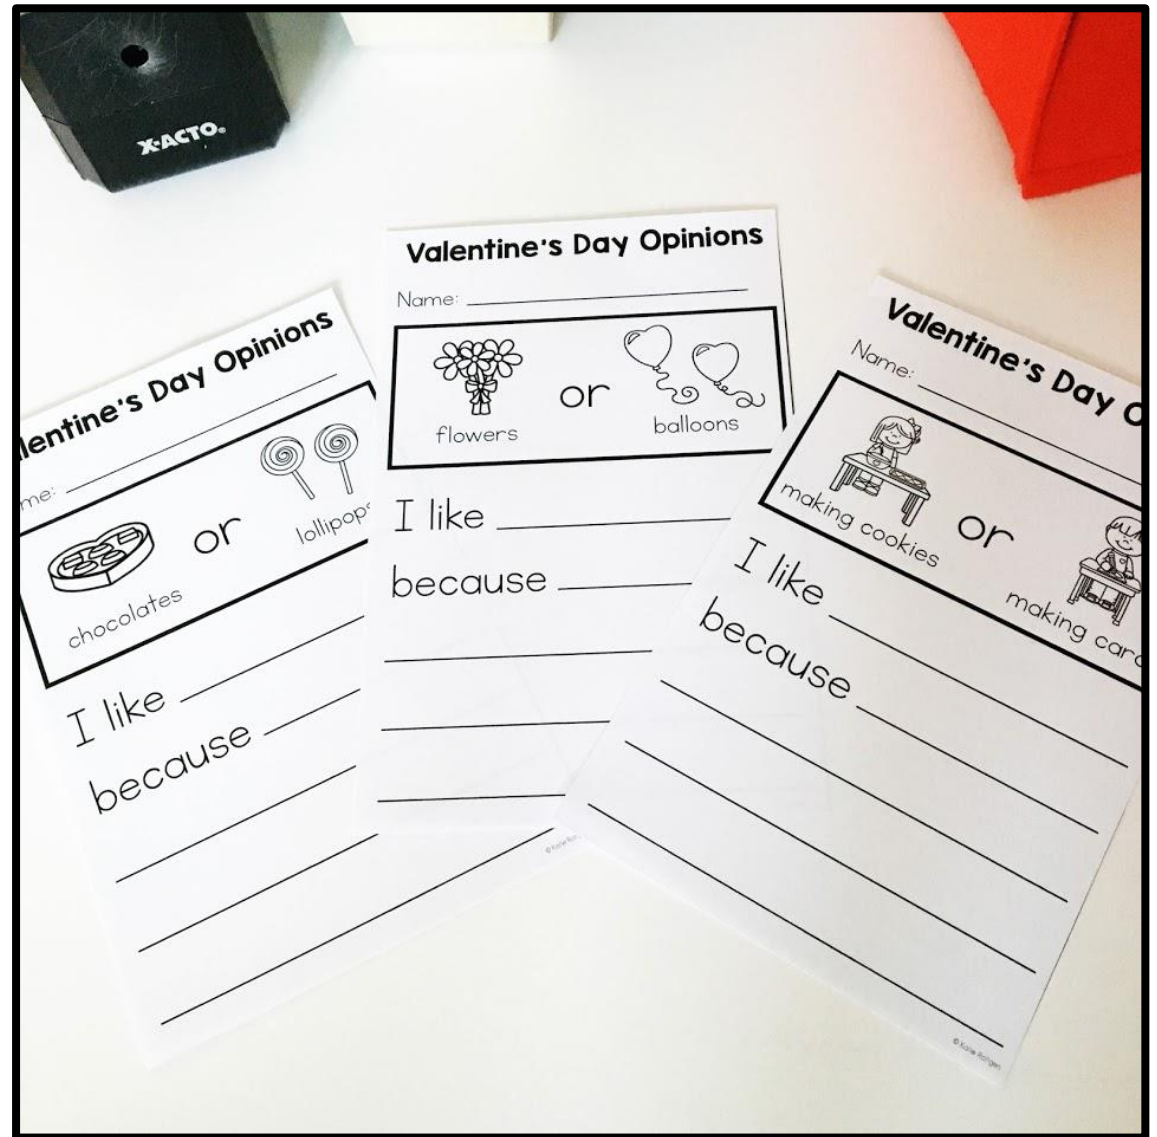

Students will write to tell their opinion.

There are **three** page options:

- * Chocolate vs. lollipops
- * Flowers vs. balloons
- * Making cookies vs. making cards

Choose one writing page.
Make copies and cut in half vertically to create two per page.

Students will color or circle their choice between the two pictures. Then they will write to tell their preference and why.

Sentence Writing

Students will write about a Valentine's Day-related picture.

There are eight pictures in all. You can give your students all eight pictures so they can choose one to write about or you can pick one for them to write about. There are color pictures and black-and-white pictures. I suggest printing on cardstock and laminating for durability.

There are two options for the recording page. One has writing lines and one has writing lines plus space to draw a picture. Choose one writing page. Make copies and cut in half vertically to create two per page.

Sight Word Tracing or Writing

Students will trace or write sight words.

The words are **editable**. They are only editable in Adobe. If you are unable to edit or if the font or formatting looks strange, download the file from TpT again, save it to your computer, and open in Adobe. Opening this file in your web browser's PDF viewer or any program besides Adobe will not work.

There are **two** recording page options. One has traceable words and one is blank. Typing the eight sight words on the sight word list will automatically generate the words onto the tracing recording page. For the blank version, students will write the words from the sight word list.

If you want to use the sight word list, print it on cardstock and laminate for durability.
