TEACHING IDEAS:

These cards can easily be used in small group instruction or in learning centers. Here's what that might look like in your classroom:

Small group instruction: Give each student a sentence card and present the matching picture cards for those sentences. Each student will read the sentence on their card and pick the correct sentence. Have them read their sentence aloud to check.

Learning centers: Pick sentences that have words your students know. Place the sentence and picture cards in a learning center.

Please read:

There is a good chance you won't use all 30 cards at once. If you're using these as an instructional tool, choose only the sentences and pictures that have high-frequency words and patterns that align with your lesson. For independent work, choose sentences that reinforce HFWs/patterns your students have already learned and practiced with teacher help.
